

Chameleon 2

Current state and outlook

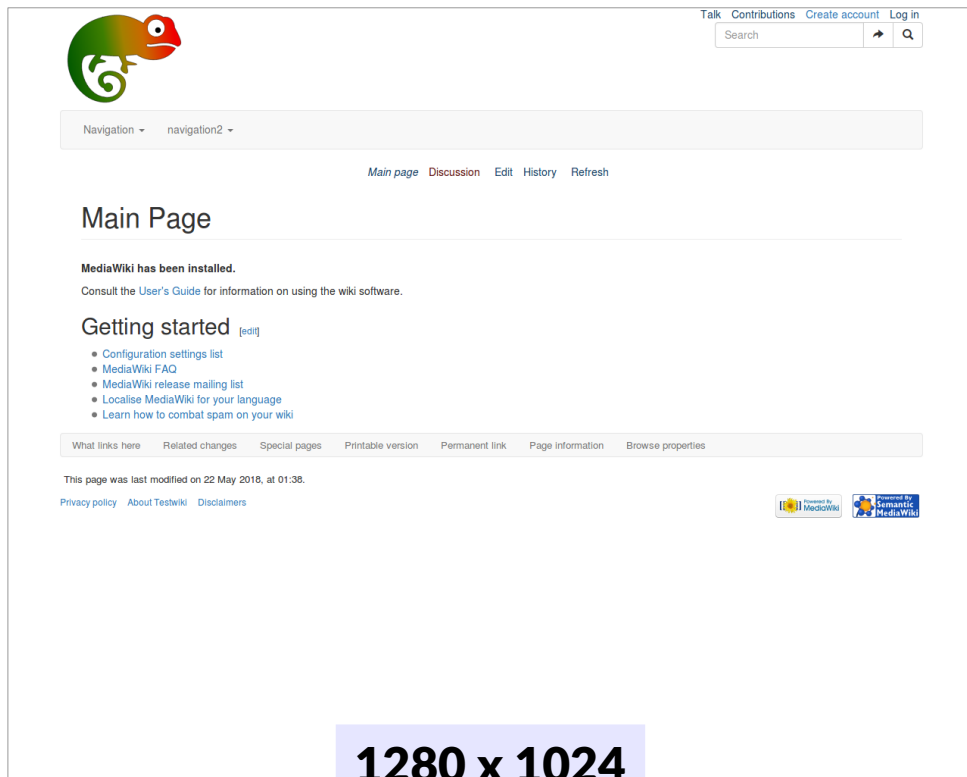

What is Chameleon?

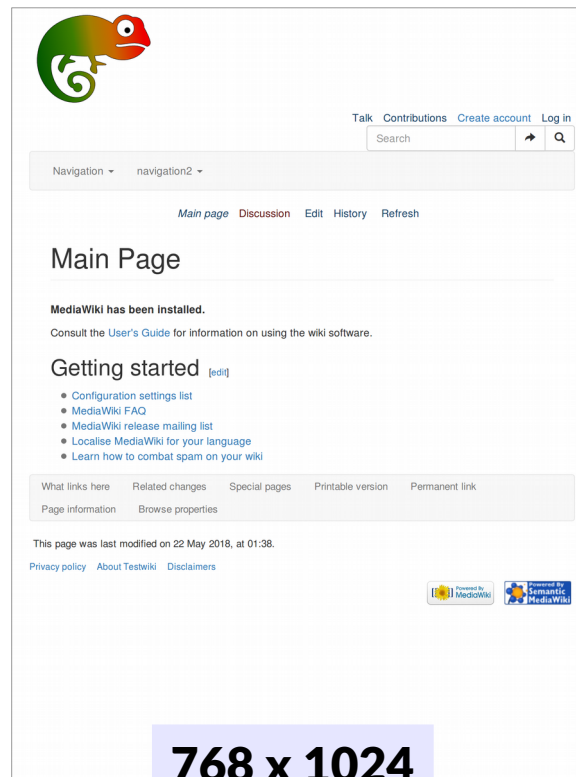

- MediaWiki skin
- Uses Twitter Bootstrap 3
- Responsive
- Highly customizable
 - Layout of components specified in an XML file
 - Fonts, colors etc. can be overridden in LocalSettings.php
 - Additional style files can be loaded

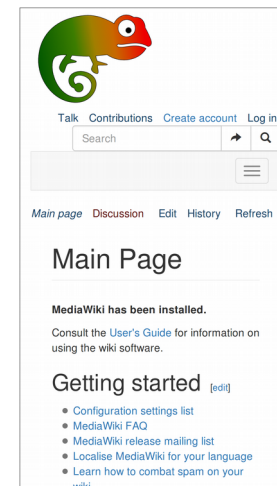

Responsive

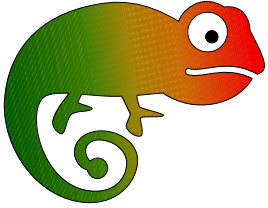

1280 x 1024

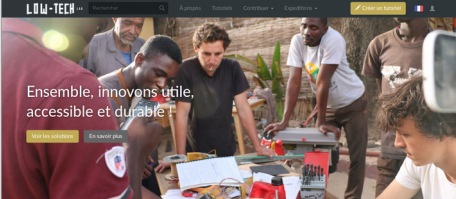

768 x 1024

360 x 640

Highly customizable

Ensemble, innovons utile,
accessible et durable !

Le Low-tech Lab

Partout dans le monde, des innovations techniques simples, accessibles et durables sont développées à échelle locale pour répondre à des problèmes sociaux, économiques ou environnementaux. Ces solutions, au cœur des low technologies, potentiellement utiles à des millions de personnes, elles méritent d'être partagées.

Le Low-tech Lab se donne pour mission de les rassembler, de les expérimenter et de les documenter de façon collaborative afin de les rendre accessibles à tous. L'ensemble de ces documentations sont partagées librement et gratuitement.

Open issues

- Layout of tools on the Navbar
- Concept for responsive behavior, particularly for the Navbar
 - What should it look like? (e.g. burger menu? Drop down? Slide in?)
 - What to do with items like search bar, page tools, personal tools?
- Installation without Composer
- Better separation of collapsed from uncollapsed layout spec

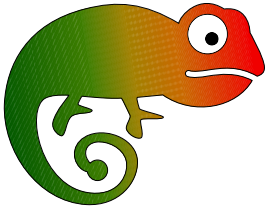

Installation of devel version

composer.local.json:

```
{
  "require": {
    "mediawiki/scss": "~1.0@dev",
    "mediawiki/bootstrap": "~2.0@dev",
    "mediawiki/chameleon-skin": "~2.0@dev"
  }
}
```

LocalSettings.php:

```
wfLoadSkin( 'chameleon' );
```
